**Southern Fabricators, Inc.**

Back in November 1968 Ken Carpenter (Rocky's dad) began the business of Southern Fabricators in one building in Polkton. Since then they have expanded the operation several times - besides the many buildings, they have added very modern and efficient computerized equipment. They even have three lasers, powder coating equipment and many other pieces of automated equipment. Employment presently is approximately 75 - some having been with the company - like Van Garris - for 35 years. Can you believe that this modern plant here in Anson County produces products for Ingersol-Rand, Cutler-Hammer, Siemens, Freightliner - the list

goes on - and they ship to not only both Carolinas, but to Georgia, West Virginia and other places. Pete Cook tells me that they build highway sweepers, many items for the rental tool and construction trade, large electric switch boxes (for Cutler-Hammer) and, again, the list goes on. I lettered the above trailer on March 13, 1981. All of this reminds us of the many unique businesses that are right here in Anson County - and Southern Fabricators along with Hornwood are, to my knowledge, the only two Anson County businesses that are (Underwriters Approved) ISO/9001 certified, which is a high standard recognized all over the world!
