Breast cancer is the most commonly diagnosed cancer among women in South Carolina. Studies show that early detection can lead to survival rates of 95% or better. The best tool in early detection is the mammogram, which can identify breast abnormalities before they can be felt.

At McLeod Health, we provide mammograms at each of our locations. We also have a mobile mammography unit that travels throughout the region.

To schedule a mammogram call 843-777-2095.
For McLeod Clarendon, call 803-435-3121.
